FOR ARTISTS AND PHOTOGRAPHERS

This issue features the petite but very well proportioned Eurasian lovely . . . Mei Ling. A well formed 36-20-35, dark hair, black sensuous sloe eyes, cute dimples and beautifully shaped legs makes this gal strictly "Ding How", as the Chinese would say, for camera bait.

Modelling is nothing new for Mei Ling, she was in demand even as a mere child for many commercial assignments requiring the use of an oriental type. Nowadays she has no trouble at all securing work in the modelling field. The main difficulty might be the scarcity of time to complete all the assignments that come her way.

An avid movie fan who dotes on who-dunnits and romantic plots, Mei Ling spends what ever spare time she has in local movie houses. She loves progressive jazz and has a tremendous collection of the top jazz combines recordings. Mei Ling also studied dancing very seriously and while she has not gone into it professionally she uses her dance training very well in her modelling technique.

Italian food helps keep this cute gals figure looking top notch and her appetite belies the petite look that she has. Her hectic activity thru the day keeps the pounds from adding on in the wrong places and keeps her in A-1 physical shape. Through it all she manages to keep a gorgeous smile going all the time and her bubbling personality seems to stand the strain pretty well. The following pages will bear that out.
